

The Worcester Greenstar Utility Regular

Why install a Greenstar Utility Regular?

- ▶ Perfect for homes and commercial properties with a high heating and hot water requirement
- ▶ Concealed boiler controls are great for families with young children.
- ▶ Quiet in operation
- ▶ Can be used with Greenskies solar panels for energy and cost savings
- ▶ Compatible with Greenstore hot water cylinders

Clearances*	Above flue	300mm*	300mm*
	Left	10mm	10mm
	Right	10mm	10mm
	Front	600mm	600mm
Output kW to central heating (CH)		32kW - 50kW	50kW - 70kW
ErP Seasonal space heating energy efficiency class		A / 90%	A / 90%
Solar compatible		✓	✓

*Note: Although clearance above the Greenstar Utility range is stated to be 300mm, a removable worktop may be placed directly above the boiler, allowing 10mm clearance.

Accessories

Greenstar System Filter

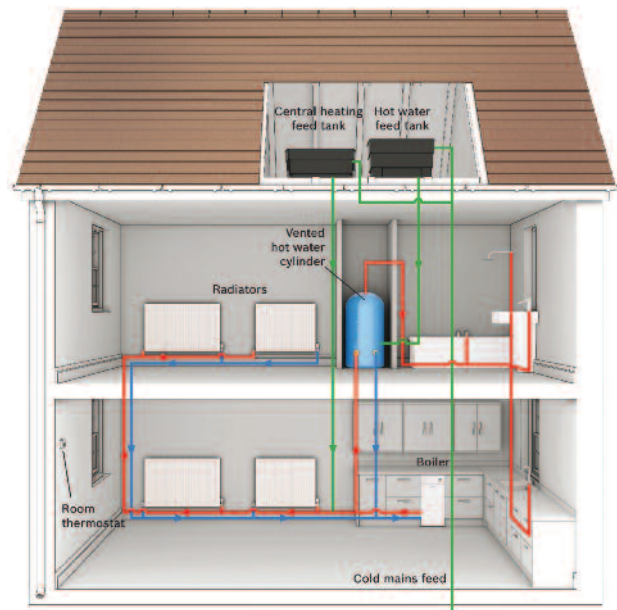

Install a Greenstar System Filter to protect your heating system from contamination and extend your standard up to 5 years*.

Boiler dimensions

The Greenstar Utility is surprisingly compact for such a high output boiler.

Know your system

Regular boilers which are sometimes known as traditional, conventional or heat only boilers are ideally suited to homes that already have a traditional heating system. They require a cold water storage tank to feed a hot water cylinder, plus a tank that maintains the water level of the central heating system.
